

Dear Republican Neighbor,

These are very dark times for our nation and our party, especially here in Bucks County. We lost every race in the November elections due to poor leadership and poor messaging. Our voters didn't show up because they are frustrated that our party doesn't fight for us and what we believe in. The Bucks GOP leadership and our 50 year old bylaws are corrupt and we need **NEW LEADERSHIP AND NEW BYLAWS** to restore the power to the local committee people and not the RINO party boss elites in Doylestown.

This is why I am running to be your local Republican Committee representative in the April primary election. I will:

- Keep you informed about the party, candidates, elections...etc.
- Vote for **new leadership** that will fix the broken bylaws, re-direct the party and re-energize our voters
- Work with the other principled conservatives on the committee to **bring about the changes** we so desperately need to restore confidence in our elections and elect actual conservatives
- Work to help **put President Trump back into the White House** in 2024.

I'll be coming back to see you in February with my petition to get on the ballot. Please do not sign any other petitions for Bucks County Republican Committee until you see me, as you can only sign one petition per position and if I have a challenger it will certainly be an establishment RINO who will NOT vote for change but for business as usual!

Please feel free to contact me anytime and THANK YOU for your support!
